KREA UNIVERSITY

Placements and Internship Report 2023-24

IFMR Graduate School of Business

IFMR (Graduate School of Business) rests on the strong foundation of the five decades legacy of IFMR, combined with Krea University's vision to create a positive impact in the world of the future. As an institution that has imparted high-quality management education and deep-dived in sectoral research, the MBA programme at IFMR GSB comes rooted in the legacy of research and education.

Enriched by the unique Interwoven Learning guidelines IFMR GSB focuses on endowing the students with critical, abstractive, analytical, quantitative, integrative, and ethical thinking. This multi-dimensional approach helps students navigate accelerating change, manage the complex interdependence between business and society, meet the competing demands of diverse stakeholders, thrive as professionals, and help them become successful leaders of organisations.

Professor Lakshmi Kumar

Dean

IFMR GSB, Krea University

“IFMR GSB has always reveled in its placement record. Our placement has always been near 100%. Over the last 23 years, the average has been increasing year on year. This year, our students have been placed with an average CTC of Rs 13.04 lakhs. Our curriculum is relevant and dynamic and merges core business functions with innovative interdisciplinary courses in communication, design thinking, and ethics. Our knowledge lessons are backed by research and contemporary case studies, and are facilitated by an excellent set of faculty members. The placements are a direct sum of a strategically curated programme, and the relentless pursuit to place our students in top global organisations by our placement team headed by Professor Nagarani and supported by faculty, staff and students of the placement cell.

We have been able to attract international companies like J P Morgan, Credit Suisse, Ernst & Young, Morgan Stanley, Nomura, Societe Generale, and many more, along with offering excellent roles like risk management, consulting, analytics, and regulatory reporting among others. This year, we made our debut international placement with Brand Folio. We have been able to attract several top companies every year due to the consistent excellent performance of our students. Today our alumni are also playing a large role in absorbing our students. Another important facet of our placements is the steady increase in PPOs. With a focus on niche areas like quantitative finance, datascience, fintech and sustainability we are sure to attract more companies and larger roles in the years to come.”

Professor Nagarani M

Head, Corporate Relations and Career Services
IFMR GSB, Krea University

“Industry relationships and corporate associations form a significant part of a business school’s journey. At IFMR GSB, we have collaborated with a wide array of institutions leveraging their expertise in research, education, training, management development programs, and consultancy while also nurturing strategic relationships that are mutually beneficial. Our office handles all industry-related activities, from coordinating campus visits to collaborating on other relevant events.

Through our ongoing initiatives, we continue to build strong partnerships and bring thought leaders, industry experts, and practitioners across the spectrum of diverse categories within the industry.

Assisted by a rigorous process and trained by experts, our students hone their skills in group discussions, public speaking, aptitude training, communication skills, and much more. Personalised coaching ensures that each individual excels. We also encourage student participation in events and programs which help them in gaining industry exposure. From our ten-week-long summer internship to final placements, we look at a well-rounded progression where our industry partners get to match their needs with the career goals of our students.”

Nearly

100%

of IFMR GSB Cohort 2022-24 placed across top BFSI, Consulting and IT firms
